- **Databases:**
MySQL, MongoDB
- **Tools:**
Git, Docker, Postman

LANGUAGES

- Portuguese (BR) – Native
- English – C1
- Spanish – B2
- Japanese – A2

EXPERIENCE

K-5 Teacher | Jan 2015 - Dec 2016
EMEIF Monteiro Lobato, Brazil/PR

- Provided instruction in Brazilian Portuguese language and computer literacy to young learners. Crafting engaging lesson plans, fostering an inclusive classroom environment, and employing innovative teaching methodologies.

Youth Support Educator | Jan 2017 - Dec 2018
Lar São Francisco de Assis, Brazil/PR

- Taught Brazilian Portuguese and computer skills while also providing life support to students facing challenges in their lives. Offering mentorship and practical assistance to help students overcome obstacles and succeed both academically and personally.

Coverlay Inspection Specialist | Jun 2019 - Sep 2021
Murata Manufacturing Co., Japan/IKW

- I was responsible for ensuring the quality and precision of flexible printed circuit boards (FPCs) through detailed coverlay inspections. My role involved working with advanced electronic manufacturing processes to maintain high standards in flexible PCB production for various consumer electronics and automotive applications.

Insatsu Instructor | Sep 2021 - Oct 2022
NGK Insulators, LTD., Japan/IKW

- Managing printing operations and leading training initiatives for new team members, ensuring they gained the technical knowledge and hands-on experience necessary for efficient production. Provided clear guidance on process optimization, quality control, and machine operation. Responsibilities included preparing printing screens and materials, adjusting machine settings, conducting visual and dimensional checks, and ensuring high-quality output according to NGK production standards.

Translator | Jan 2023 - Nov 2026
Freelancer, Brazil/SP

- Translating, revising, and proofreading content primarily for college and university projects to ensure precise and clear translations, meeting high-quality standards through meticulous revision and enhancement.
- **Babelcube**: Working with books in various genres from independent authors around the world. (All the completed books are available for purchase on most reputable retail websites).
- **TED**: Transcribing and subtitling in different categories of presentations.

FULL-STACK DEVELOPER

Aspiring Full-Stack Developer with a Computer Science degree and hands-on experience building both frontend and backend features through personal and academic projects. Strong understanding of web development fundamentals, problem-solving, and software design principles. Motivated to contribute to real-world applications, learn from experienced people, and grow into a well-rounded full-stack professional.

SKILL HIGHLIGHTS

- Adaptability
- Attention to Detail
- Bilingual Proficiency
- Clear Communication
- Computer Literacy
- Cultural Sensitivity
- Empathetic Listening
- Gaming Knowledge
- Patience and Composure
- Technical Proficiency
- Time Management
- Zealous Learner

Private Online Teacher | Jan 2023 - Nov 2026

Freelancer, Brazil/SP

- Teaching Brazilian Portuguese globally, emphasizing grammar, vocabulary, pronunciation, and cultural aspects to enhance language acquisition and fluency.

Full-Stack Developer | Jan 2022 - Current

Freelancer, Brazil/SP

- I've been deeply immersed in creating, testing, and deploying full-stack applications as part of my self-driven learning journey. I focus on real, tangible projects that push me to develop both front-end interfaces and back-end services, with an emphasis on building functionality from scratch and problem-solving at every stage of development.
